EXPERIENCE

AFME (Al Falak Middle East) / Parcx Software - Dubai, UAE

APR. 2018 - PRESENT

Software firm that specializes in B2B enterprise software and web development. Clients include Emirates, Dnata, Siemens and the Saudi Arabian government.

Web Developer, UI/UX Designer

Key Technologies: HTML, CSS, JavaScript, React Native, Git, Umbraco, WordPress

- Developed an e-commerce website for sporting and entertainment event tickets in Saudi Arabia; selling between 19,000 and 69,000 tickets per event
- Led complete redesign of the booking process, developing interactive SVGs for stadium and seating layouts, which resulted in increased conversion
- Designed and developed the front-end interface for 2 web-based parking management systems; prioritized and resolved new features and bug fixes
- Created a WordPress knowledge base for software documentation, improving client onboarding and reducing time spent on administrative tasks
- Designed animated tutorials for parking terminals, reducing transaction time and improving user experience and engagement
- Built the front-end interface for a hardware dashboard that tracks equipment connectivity, performance and downtime at client facilities
- Developed Android and iOS applications using React Native

Al Mana - Dubai, UAE

MAY 2016 - DEC. 2017

Retail group that operates 55 Fortune 500 brands across the Middle East and Ireland. I was assigned to the British entertainment retailer hmv (His Master's Voice).

Digital Design Coordinator (UI/UX) (DEC. 2016 - DEC. 2017)

E-Commerce Content Assistant (MAY 2016 - NOV. 2016)

- Analyzed the impact and effectiveness of UI changes on customer retention; identified customer behavior and recommended website modifications
- Created graphics and animated video content for digital, print and outdoor advertising; assessed customer response to create targeted messaging and inform future design concepts

[Tehama Group Communications - Chico, California, USA](#)

AUG. 2015 - DEC. 2015

Digital agency managed by Journalism staff and students at California State University, Chico.

Web Developer (Intern)

Key Technologies: HTML, CSS, JavaScript, Wordpress, Joomla

- Led full redesign of website for an American non-profit organization, increasing website donations by 11%
- Managed 1 direct report (photographer, marketing associate) and coordinated with designers and PR staff towards the successful launch of 2 websites

TECHNICAL SKILLS

Programming Languages: HTML5, CSS3, JavaScript ES6, some PHP, some C#

Libraries and Frameworks: jQuery, ASP.NET, Angular, Knockout JS, Bootstrap

Cross-Platform Mobile Development: React Native

Version Control and Development Tools: Git, Azure DevOps

Content Management Systems: WordPress, Umbraco

Design Tools: Sketch, Photoshop, Illustrator

EDUCATION

[Microsoft Professional Program, Front-End Development](#)

2018 - 2019

Microsoft

Project-based learning in JavaScript, jQuery, Angular, Microsoft Azure and DevOps. For my capstone project, I designed and developed an e-commerce web application using Angular.

[Bachelor's Degree, Journalism \(Digital Communication\)](#)

2011 - 2015

California State University, Chico - Chico, California, USA

An interdisciplinary program that covered digital media, web development, graphic design, writing, editing and introductory computer animation.

CONTINUOUS LEARNING

[Front-End Development, Web Design](#)

2017 - PRESENT

Treehouse (Web Development E-Learning)

Project-based learning in JavaScript, Object-Oriented Programming and Web Design.
